

Converge Mobile + Moby M70

A perfect fit for all your business needs
– Moby M70's payment solution paired with
Converge Mobile's versatile payment experience.

Integrated Paypoint. Customizable, expandable, and with the ability to access the tools you need – the all-in-one tablet solution, Moby M70 is made for each stage of your business.

All payments, all the time. You offer your customers the products and services they love; let them pay the way they like. The Moby M70 supports EMV chip, Magstripe and NFC/Contactless transactions, including digital wallets.

A complete wireless payment solution. Moby M70 lets you accept payments with security and the convenience of Wifi.

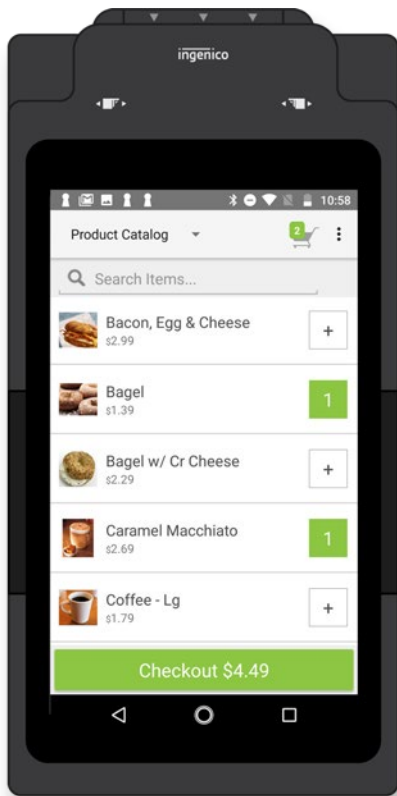

Plug and play. The Moby M70 offers a full suite of accessories so you can get up and running, hassle-free.

Payment acceptance in the palm of your hand.

Converge Mobile Features

Product Catalog improves the check out experience for businesses and customers alike. With the simple click on an image, products are added to the shopping cart, making checkout easier and faster.

Billing and Invoicing is a great option for small businesses who need a way to send quotes or invoices via email. Provide your customers with a secure way to pay quickly online.*
